

Beauflor Cushion Vinyl Warranty

Beauflor resilient vinyl flooring is guaranteed to give you peace of mind through the warranties that we offer. While all of our floors are manufactured to the highest standards, Beauflor offers a wide range of performance qualities.

In short, the higher the grade of product, the better the performance. This is reflected in the warranty we offer: the type and duration of warranty depends on which floor covering you have purchased. If you are uncertain about which applies to your floor, consult your retailer.

Beauflor Durability Warranty

As undue or abnormal wear is often due to poor installation, Beauflor recommends that all their floor coverings are professionally installed.

All floors can be damaged by abrasive grit and debris carried in from outside on footwear; prevent such wear by using doormats at all entrances (avoid using mats with rubber backs as these can cause discolouration).

For further information request a copy of Beauflor's current installation and maintenance literature from your retailer or directly from Beauflor.

The Beauflor Durability Warranty guarantees the following:

- That the wear layer (the solid-vinyl top layer) of your cushioned vinyl floor covering will not wear through within the applicable warranty duration (see above - the number of years covered begins at the date of purchase).
- That the floor covering's structure (which is made up of layers) will not noticeably delaminate (come apart) within the applicable warranty duration.
- That the floor's surface is not spoiled by manufacturing defects such as printing errors, blemishes, cracks, blisters or foreign matter (these are normally noticeable immediately after installation).

We hope this wear warranty will give you all the confidence you need to install your floor with complete peace of mind; so as not to mislead you we also make clear what is not covered by the warranty - see Beauflor Warranty Limitations below.
